Pantera

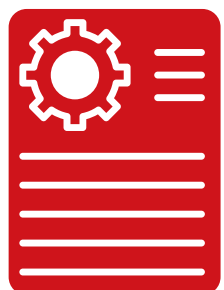

Self-Leveling Micro-Concrete Fluid from 0 - 6 cm

For repairing, leveling, and resurfacing floors in new construction or renovation projects, and radiant heating systems with a minimum thickness of 30 mm.

Can be covered with ceramic, terrazzo, PVC, linoleum, vinyl, carpet, laminate, wood, or microcement. It can also be used as a self-supporting floating screed over plastic or anti-impact sheets from 3 cm thick and over rock wool from 40 mm thick.

- High compression strength > 50N/mm²
- High adhesion > 1N/mm²
- Minimal shrinkage, both vertically and horizontally

Product Data Sheet

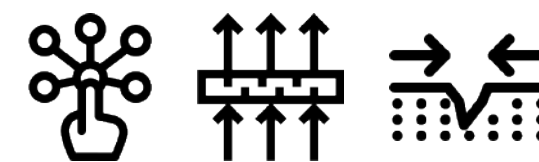

Usage information and
product characteristics

Ultimate

Adhesion Bonding Bridge Copolymers, acrylic resins, and organic additives

For joints between monocapa mortar, tile adhesive, conventional mortars, plaster, etc. Suitable for improving adhesion and as a primer on non-absorbent surfaces.

Ensures adhesion on multiple substrates, including tile adhesives, concrete walls, and pillars.

- Excelente Puente de Unión
- Transpirable
- Multitud de Soportes
