SYSTEM

Decopox

Innovative Solutions for High-Quality Coatings

Seamless finishes with high resistance and a modern aesthetic.

Applications

Great versatility and multiple uses

- › Offices, apartments, and hotels
- › Commercial spaces and industrial areas
- › Kitchens and bathrooms
- › Furniture such as countertops and shelves

Main benefits:

- › jointless and easy maintenance
- › High durability and abrasion resistance
- › Suitable for humid environments
- › Simple applications, no technical knowledge required

What is Decopox?

Decopox is a seamless epoxy coating system, just 1.5 mm thick, that combines the durability of an industrial coating with the aesthetics of a decorative finish. Its versatility allows it to be applied indoors and outdoors on floors, walls, countertops, and furniture.

- › Wear-resistant (BCA AR 0.5)
- › Available in multiple colors (RAL, NCS, Pantone...)
- › Applicable on ceramic, stone, marble, and concrete
- › Vapor-permeable but non-absorbent

› Primer

› Moisture Treatment

› Decorative Layer

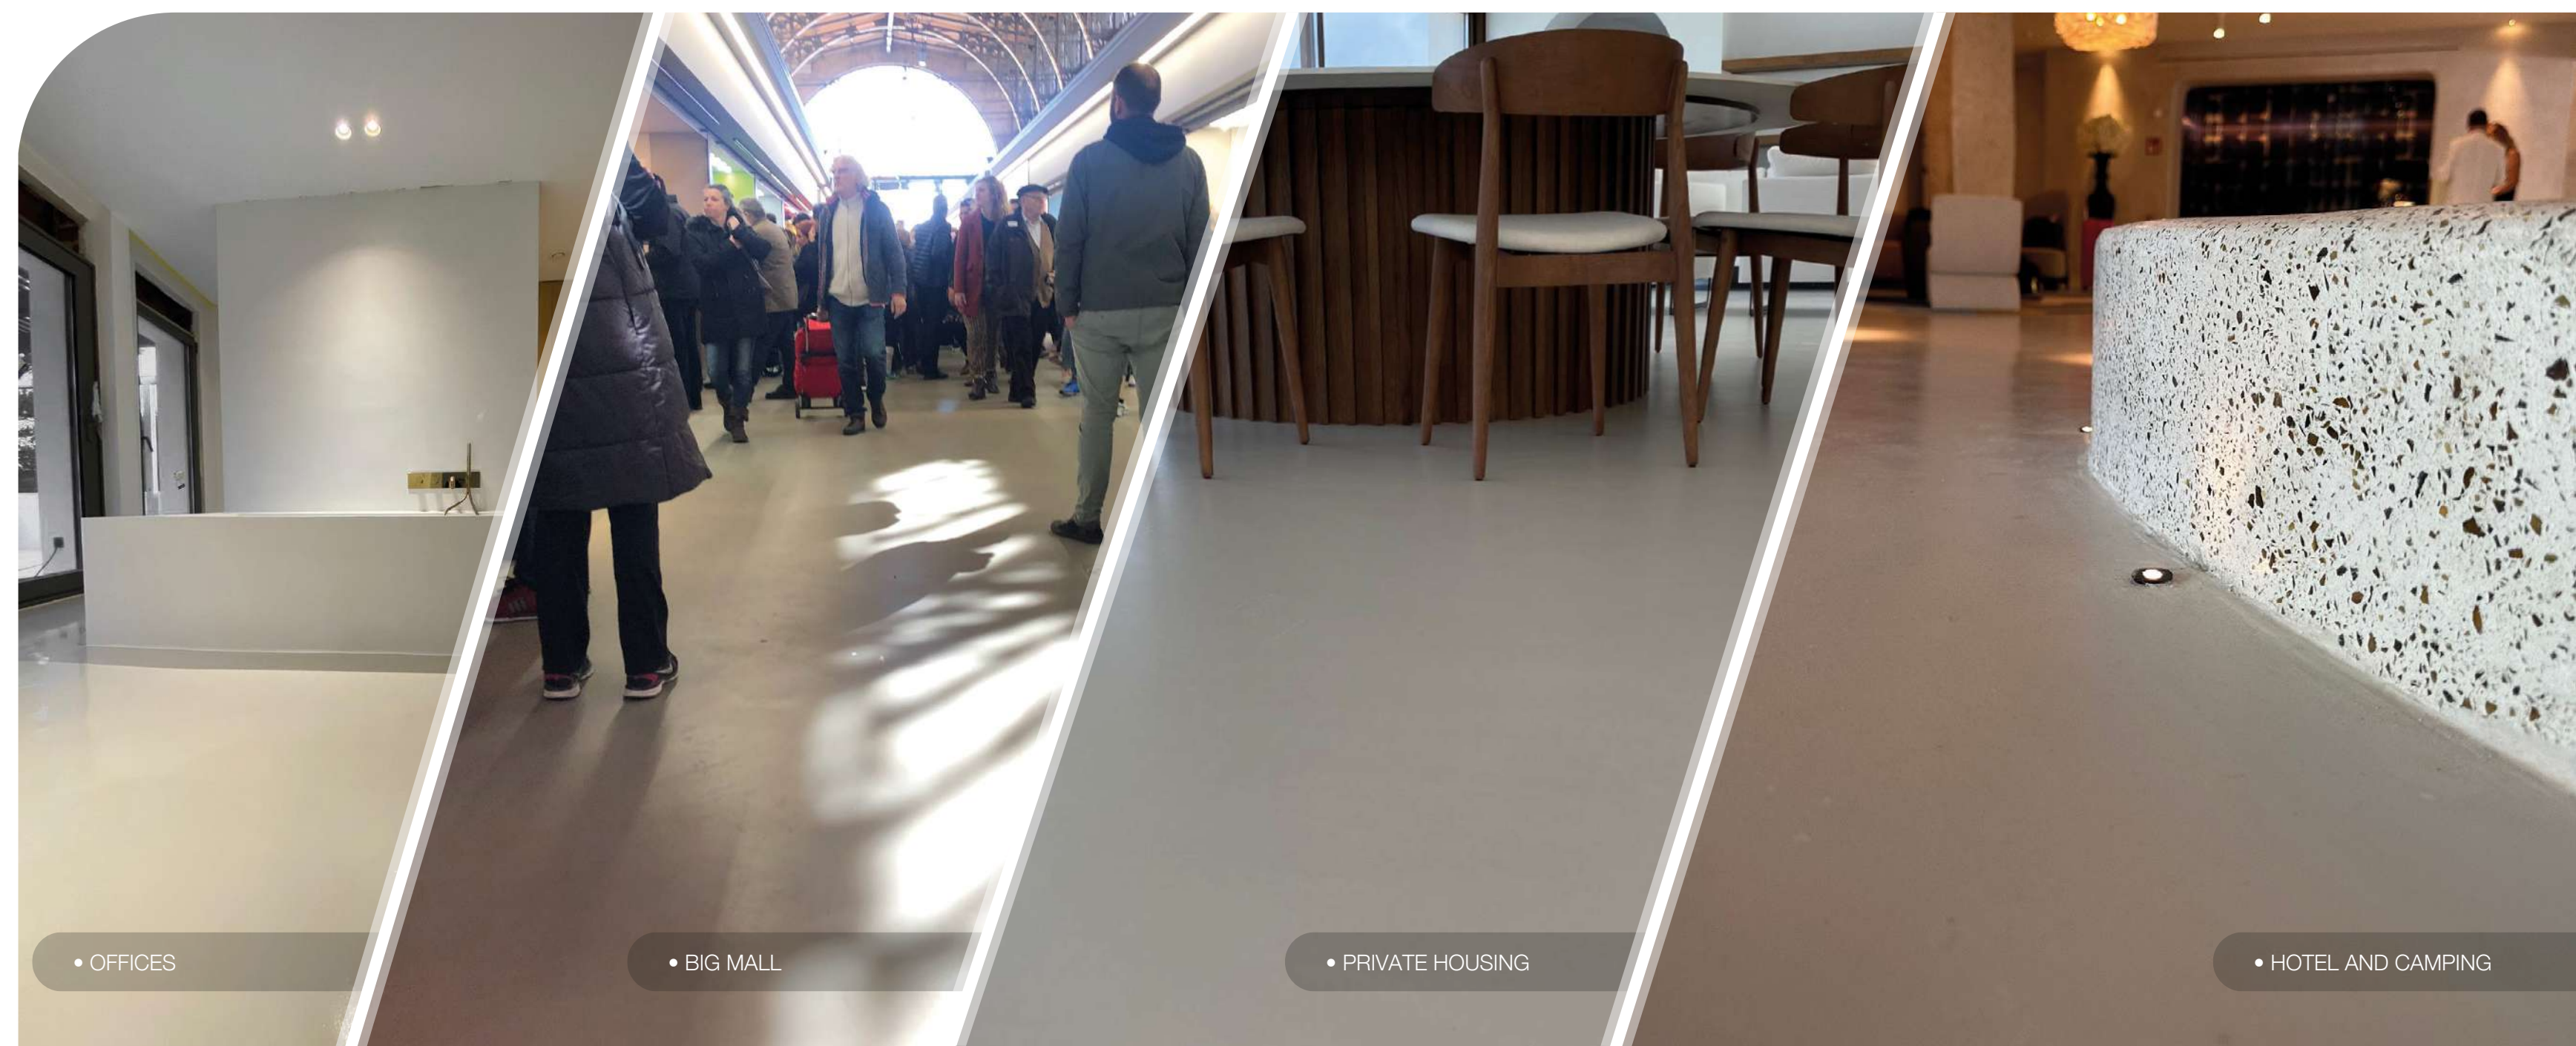

› Protective Sealing

System Composition

Continuous epoxy coating 1.5 mm thick

- › **Primer:** Pavex Primer 2C, ensuring optimal adhesion and surface preparation.
- › **Moisture Treatment:** Two layers of Ecopox CEM Plus 3C, a decorative epoxy designed to regulate and stabilize moisture-prone surfaces.
- › **Decorative Layer:** Two layers of Decopox (A+B), a decorative epoxy coating available in a wide range of colors.
- › **Protective Sealing:**
 - Veladura:** High-resistance water-based single-component polyurethane.
 - Orfapol Plus:** Solvent-based polyurethane with high wear resistance.
 - Orfapol 50:** Water-based polyurethane for a highly wear-resistant finish.
 - Orfapol 100:** 100% solids aliphatic single-component polyurethane.
