## VARIOUS SYSTEMS

In November 2023, an **outstanding work** was carried out at the luxurious Mondrian Hotel in Cala Llonga in Ibiza, in the Balearic Islands (Spain).

This is a masterpiece of Mediterranean design and elegance. **Pavistamp**, with its exceptional materials such as **Decopox**, **Stone Feel Concrete**, **Pavicem** and **Pavistamp Printed**, has played a crucial role in the realization of this project.

The choice of **high-quality materials** and the contribution of **Pavistamp** have been key in **creating an authentic and unique luxury space** that promises to be a coveted destination for those seeking an exceptional experience in one of the most beautiful places in Ibiza.

Situation: Atalaya 20, 07849. Cala Llonga. Ibiza - Spain

## Hotel Mondrian Ibiza

Overlooking the turquoise waters of the Balearic Sea on Ibiza's beautiful east coast, **Mondrian Ibiza** brings its **elegant sophistication, innovative design and extraordinary service** to the Mediterranean.

The hotel has 154 spacious rooms with the **exclusive Mondrian aesthetic**. Two cozy lounge pools with fascinating views of the coast and three innovative dining destinations to bring the flavors of the Pitiusas Islands to life with craft cocktails and creative dishes.

## Hotel Mondrian

Decopox, Stone Feel Concrete,  
Pavicem and Pavistamp Printed.

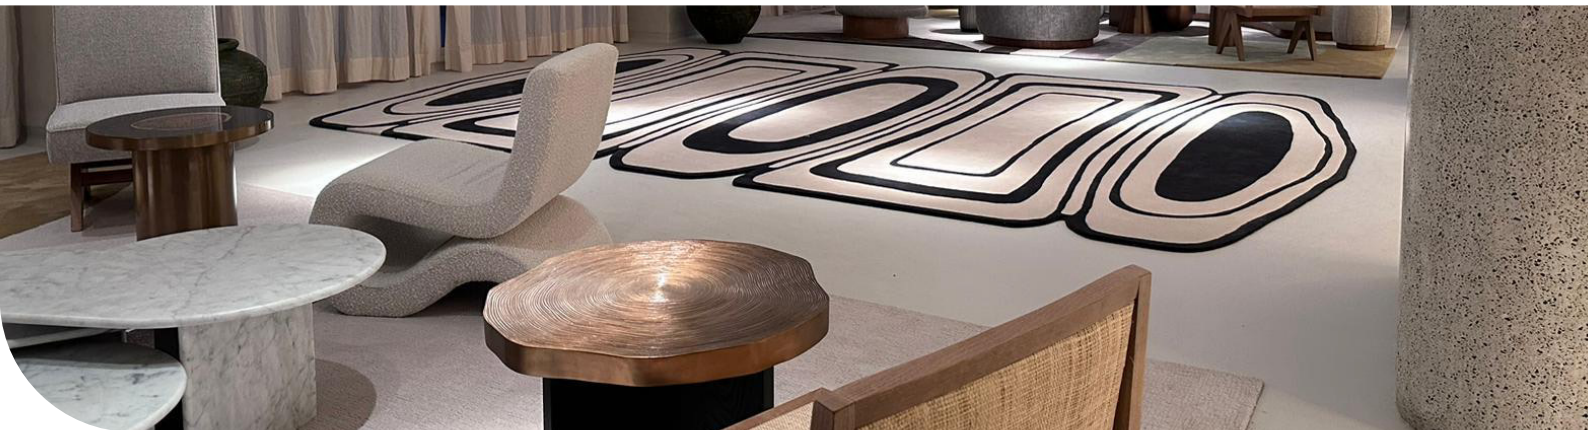

Belonging to the exclusive **Mondrian** hotel chain and owned by Ennismore, it is preparing to open its doors in a **paradisiacal setting** in the bay of Cala Llonga, Ibiza.

An **oasis of luxury**, which will offer its guests an unparalleled experience, has been designed by the **prestigious** Madrid interior design **studio** and in collaboration with **our experience** and that of our **expert installer**.

### Advantages

These systems allow designers and architects to tailor cladding aesthetics to the specific **needs and preferences** of the project.

## Composition of the System

### DECOPOX

Its advantages include the **lack of joints**, a non-absorbent surface, high durability and customization in the choice of colors.

This system is a **versatile solution** that It can improve both the **functionality and aesthetics** of various areas.

Three-component epoxy mortar vapor barrier (A + B + C)

100% solids epoxy primer

Two-component mortar based on epoxy resins in aqueous dispersion

Two-component mortar based on epoxy resins and magnesium carbon in aqueous dispersion

Glazing

Orfapol 50

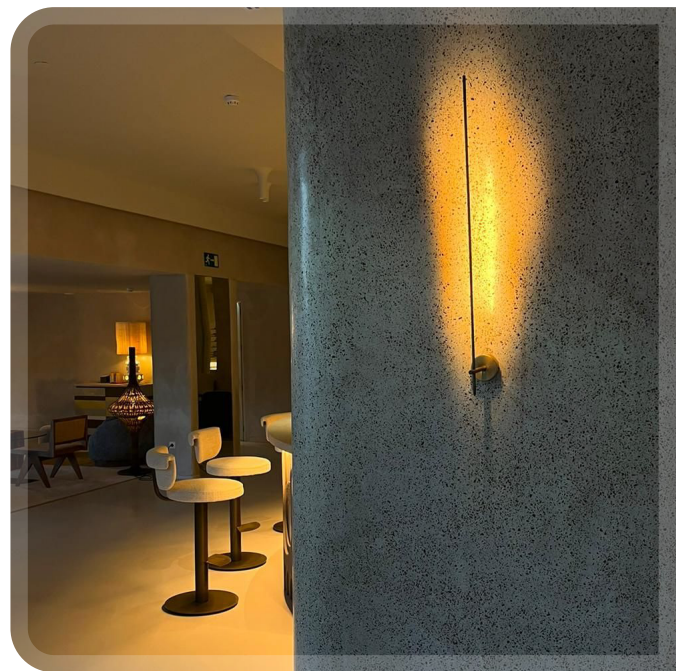

## Delivery of the Work 2023

DECOPOX

The key spaces in creating the **atmosphere of luxury and sophistication** of the Mondrian Ibiza are the hotel hall and the bathrooms of the rooms. For these crucial spaces, Decopox by Pavistamp has emerged as the ideal choice.

This coating combines aesthetic elegance with **exceptional durability**. Its refined finish and resistance to wear ensure that the beauty of the interior design lasts for years.

## Composition of the System

### STONE FEEL CONCRETE

**Stone Feel** is a mortar for pavements fluid from the **Green Line Eco** family.

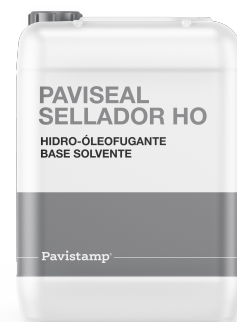

It is about achieving a floor with **crystals recycled**, specifically made with **continuous pavements** with concrete hi-tech 100% recycled aggregates.

100% Hi-Tech Concrete  
recycling aggregates

100% Hi-Tech Concrete  
recycling aggregates

Solvent-based hydro-oil  
repellent

# Preparation and application of the product

## Manufacturing process of structures and coverings:

**Construction of the Bar Structure:** In the initial phase, the bar support structure has been erected, which acts as a foundation for the pavement. Once the skeleton of the bar was completed, the main structure was built, incorporating horizontal and vertical surfaces.

**Application of Stone Feel Base:** Next, Stone Feel Base has been applied in two coats. This coating serves as a solid foundation for the pavement, ensuring a robust and durable surface.

**Use of Stone Feel Finish:** After applying the base, Stone Feel Finish was used, which gives the final touch to the floor giving it an elegant and stylized appearance.

**System Curing and Smoothing Process:** Once the base and top coats were completed, a thorough curing and smoothing process has been carried out. This guarantees that the floor is uniform and free of imperfections.

**Final Finish of the Bar:** After completing the previous steps, an exceptional final finish for the bar has been achieved. This surface is not only visually appealing, but also exceptionally durable and wear-resistant.

Together, this process ensures that the bar has a high-quality floor that meets the desired standards in terms of resistance and aesthetics.

## Delivery of the Work 2023

### STONE FEEL CONCRETE

In this project, **Stone Feel Concrete** by **Pavistamp** has been the material chosen to create a surface that not only dazzles visually, but also guarantees **strength and durability**.

The rustic, authentic look of **Stone Feel Concrete** brings **warmth and character** to this space, and its versatility extends to the columns in the café and seating area, creating coherence in the **interior design**.

## Composition of the system

### PAVICEM + VAPOR BARRIER

Decorative coating that brings together the **beauty of a decorative** and the **resistance of an industrial**.

It has no joints, is closed pore and is not absorbent and in conjunction with a primer and vapor barrier for **resin coatings**, transforms a sober environment into **something brilliant**.

For soil preparation and walls 0.2 mm (thickness)

For renovation and decoration of floors 2 mm (thickness)

Viscous adhesive for union of stones

Solvent-based alpha polyurethane enamel

Special cement, selected aggregates, additives, resins and pigments

Solvent-based alpha polyurethane enamel

Three-component epoxy mortar Vapor barrier

## Preparation and application of product

### PAVICEM

La capacidad de **Pavicem** para destacar los **detalles** y su **resistencia al paso del tiempo** lo convierten en la elección perfecta para un espacio que alberga valiosas obras de arte.

Pavicem es un **microcemento cementoso** y que no solo es un material funcional, sino también un **elemento estético** que mejora la apreciación del arte.

### Ventajas

Este sistema es un revestimiento continuo liso de entre 2 a 3mm de espesor, y es apto tanto para **interiores** como para **exteriores** y **alta resistencia al desgaste**. Su aplicación se realiza sobre superficies de hormigón, cerámica o terrazo... mediante la aplicación de sucesivas capas.

En este caso, la placa de yeso fue la mejor alternativa, por su **rapidez** y **facilidad de uso**.

## Preparation and product application

### PAVICEM

This material is perfect to combine in works with an infinite number of materials. Its **easy application** allows you to create **unique and personal** environments and decorations, as is the case with this unique project in its category.

With Pavicem you get **modern and very comfortable results.**

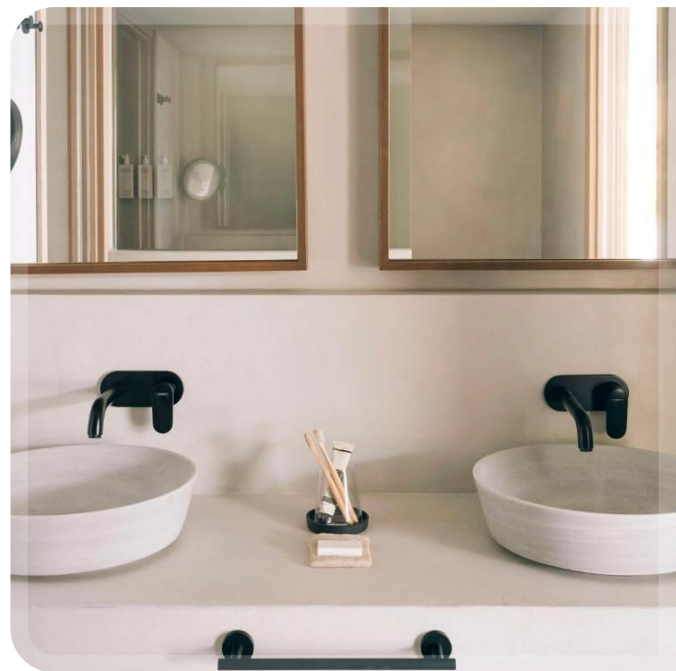

## Delivery of the Work 2023

### PAVICEM

As the main characteristic when delivering the work with our **Pavicem System**, design, **practicality and elegance** were taken into account. With built-in accessories to eliminate unnecessary objects and facilitate cleaning, comfort and access, **guaranteeing** a design that does not affect it over time.

## Composition of the System

### PAVISTAMP PRINTED

It is applied on fresh concrete and can be molded to obtain a wearing layer of **excellent hardness and durability**, high resistance that offers different types of finishes such as **stamped, smooth, striped or floated** to give it a unique appearance.

Made with color additives and molds to achieve the desired drawing impression.

For the renewal and floor decoration

Colored mortar for stamped concrete

Colored mortar for floor decoration

Fluid mortar for floor renovation and decoration

Fluid and colored freeze-thaw resistant mortar with salt immersion

Powder release agent

Powder release agent

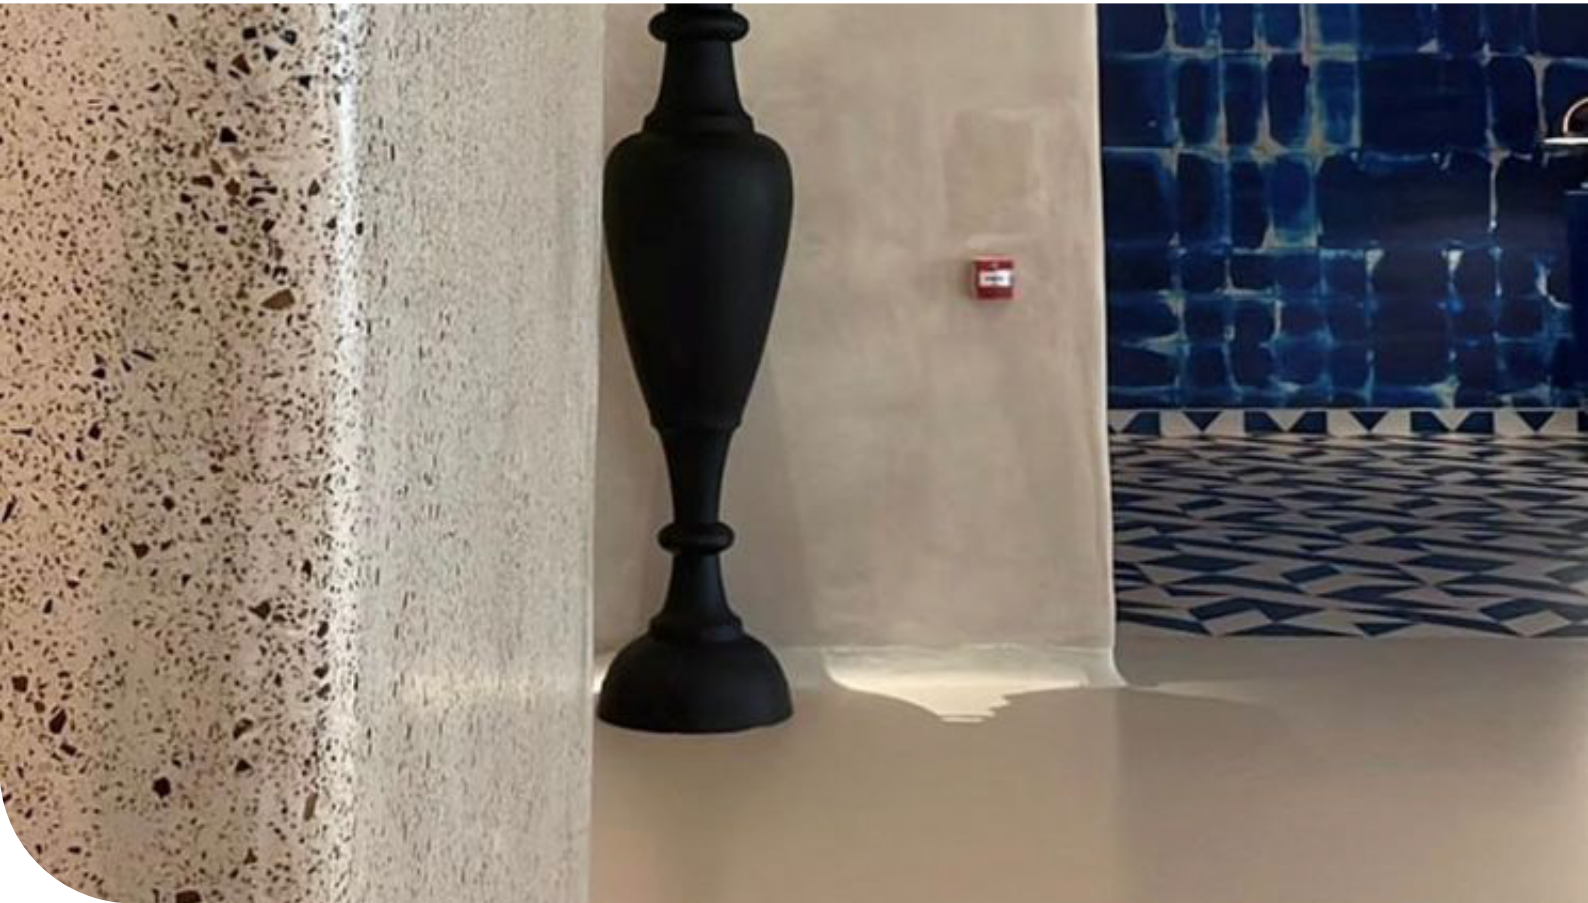

High gloss water based sealing resin

Sealing and reinforcing resin

Protective resin for pavements

## Because this is, once again, a success story

**Decopox, Stone Feel Concrete, Pavicem and Pavistamp Printed**

The Mondrian Hotel in Cala Llonga, Ibiza, is a masterpiece of **design and Mediterranean elegance**. Pavistamp, with its exceptional materials such as Decopox, Stone Feel Concrete, Pavicem and Pavistamp Printed, has played a crucial role in the realization of this project.

The choice of **high-quality** materials and the **contribution of Pavistamp** have been key in creating an authentic and unique luxury space.

**The Mondrian Ibiza promises to be a coveted destination for those seeking an exceptional experience in one of the most beautiful locations in Ibiza.**

# Actual state

## October 2023

**Current detail:** Unparalleled coatings in a place with exceptional details.

**Relaxation Areas:** The views are complemented by an interior of extreme taste and luxury.

**Furniture and design:** An important factor in design is the conjunction and mixture of styles.

**Technical elements:** More than a bathroom, a rest and relaxation area.

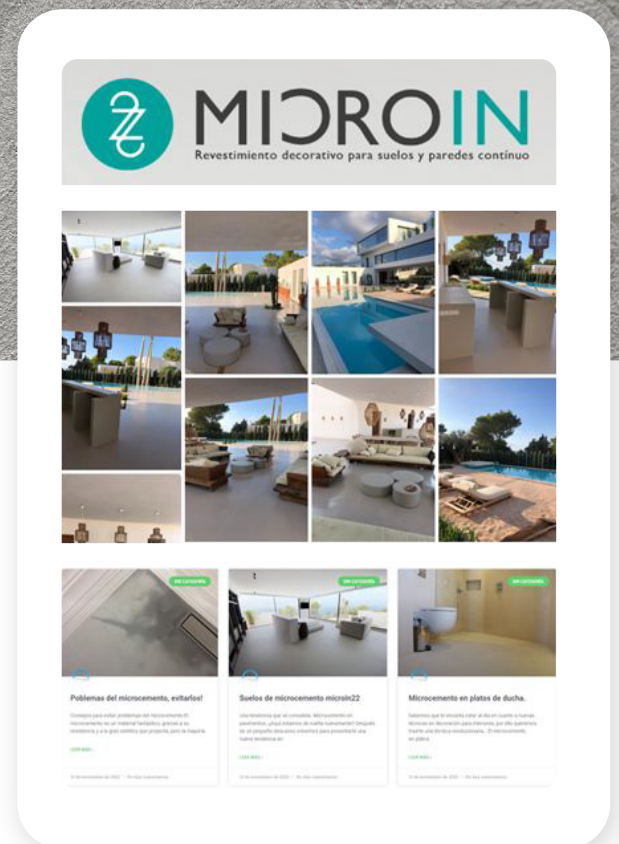

## Application of product

# Microin 22

For the realization and execution of this project, we had the collaboration of the company **Microin 22** with extensive experience in the application of this system **and small, medium and large-scale projects.**

The contribution of this experience and **methodical care** in the mixtures, processes and different use of tools was key to the **success of the project.**

Without a doubt, their contribution and experience was key so that the product, over the years, is in perfect condition and offers its function.

## Interior Design Studio

### Cuarto Interior

The Madrid interior design studio with a solid track record was chosen to **give life** to the **design** of the Mondrian Ibiza. Its proposal captures the distinctive essence of Mondrian with a **natural sensitivity** that permeates all of the hotel's spaces.

However, one of the most notable aspects of the project is the deep respect that **Cuarto Interior** has shown for the natural environment of Ibiza. The palette of the colors and **materials used** are **inspired by the beauty of the island**, from the white sand beaches to the intense blue of the Mediterranean.

**CUARTO INTERIOR**  
BAHIA, 29
